

about new leaf organics

OUR MISSION FOR THE FARM:

- to grow high quality, deliciously fresh organic vegetables.
- to maintain and build on the health of our soil and water.
- to keep this land open and in agricultural production.
- to bring community members together in appreciation of good food and eating with the seasons.
- to help all our kids learn where food really comes from.
- to be a healthy and joyous place for kids to roam and discover.
- to provide a positive and meaningful place to work for our employees and ourselves.

Farmstand offerings,
our CSA Program
and a wide variety of
farm fresh flowers.

New Leaf Organics is a working vegetable and flower farm established in 2001. Our farm is located on the town line between Monkton and Bristol, Vermont and has been certified organic from the start. Our fields range from heavy clay to fine sandy soils, allowing us to grow a wide variety of edible and ornamental crops throughout the season.

*We primarily grow food and plants for people in our Five town community through our on site farm stand, our Vegetable CSA program, our 2 farmers markets, and our wholesale accounts. We also raise specialty cut flowers for weddings and events, from casual to formal. **New Leaf Organics is owned by Jill Kopel and Skimmer Hellier. All of our crops are grown with the love and effort of many hands.***

OUR FLOWERS

We grow over 100 varieties of organic fresh and dried cut flowers from Mid April through late October. Come tour our gardens in Monkton, Vermont and choose the color combinations you like, or let us surprise you. We offer everything from “pick your own” to our “weddings in a bucket,” to full service arrangements and delivery. You can choose what works best for you. Locally grown flowers are picked fresh for you so they last longer and help accentuate the natural beauty of Vermont all season long.

Would you like garden fresh flowers without the price of a full-service florist? When you buy direct from the grower you are ensured the highest quality flowers.

OUR CSA PROGRAM

Are you interested in eating fresh, organic veggies all season? Do you like knowing that your food is grown close to home?

Joining our CSA is a great way to buy locally grown food AFFORDABLY. As a member, you receive a discount off of our retail prices all season long. You can choose what you like to take each time, with a few exceptions, and that way you know it will all get enjoyed. Our recipes will help you be a little more creative with new vegetables, or help you to really take advantage of our bounty in new and different ways. A sign up brochure and more information are available on our website.

OUR FARM STAND

We open May 1st with a huge selection of organic potted herbs, vegetable starts, flower paks and pots, seeds, compost, hanging baskets, etc. We carry seed potatoes, sweet potato slips, berry bushes, and other edible perennials. We also sell produce that we grow, and occasionally other locally made treats. **Open every day May through mid July**, and then call for hours.

*You can
